THE KITCHEN

It's easy and reasonably low cost to transform your kitchen. Just a lick of paint and changing existing cabinet furniture and door handles creates a new fresh look with minimum effort

THE LOUNGE

You can create a whole new look depending on the design and finish of your cabinet and door furniture – its easy to modernise or to traditionalise your existing modern room.

THE GROWN UP BEDROOM

It's hard to design a bedroom that is stylish yet functional and calming without making it look like a soulless Showhome. We all know the importance of a good night's sleep but do we realise how much the interior can impact this? Take the time to research top tips and advice on bedroom styles that will look great and provide you with the relaxing haven that you want

THE LITTLE PRINCE'S ROOM

No matter their age, boys will be boys!! Sometimes they like to get away from the 'girls' and escape to their bedrooms for some chill time.

Simply changing curtains, duvet cover and fixtures will create their own private space. Creating the mood through the transition from the 'little boy' to the 'big boy' is simple

Soft tuber – for the younger child

Plastic – for the soon to be older child

Metal – for the older child

THE LITTLE PRINCESS'S ROOM

Just like their brothers, little girls need to have their own special chill out times too.

White or pastel furniture can be updated through all stages of childhood. Bedding, accessories, paint colours, cabinet and door furniture can easily be changed as tastes change over the years.

THE BATHROOM

The design of your bathroom dictates its overall mood and energy.

The choice of cabinet knobs completely transforms tired and dull furniture. You do not have to remodel the whole room to make a huge improvement. Cabinet hardware can be changed in a matter of minutes.

Choose from either modern clean lines or 'fun' designs. The options are endless.
